Promulgated with the consent from the President dated September 30, 2015

Amendments to Subparagraphs 2-5 of Provision II promulgated with the consent from the President dated April 7, 2016

Amendments to the Rules adopted by the University Administration Council on September 19, 2018, and promulgated with the consent from the President dated September 25, 2018

Amendments to the Rules adopted by the University Administration Council on December 25, 2024, and promulgated with the consent from the President dated December 31, 2024

- I. Based on the “user pays” principle, residents of university-owned dormitories (i.e. Dormitory 1 and Medical Campus Dormitory) are required to purchase a stored-value card to pay air conditioning fees.
- II. Purchasing, recharging, and getting a refund of stored-value cards:
 1. How to purchase: During the first month after the first day of school, residents can buy a stored-value card at convenience stores and bookstores on campus during their respective business hours. Starting the second month, residents can buy a stored-value card at the Cashier Section of the Office of General Affairs (hereinafter referred to as “the Section”) during payment hours and at bookstores on campus during business hours. Residents shall discuss buying, using, and recharging their stored-value cards with their roommates.
 2. How to recharge: As long as the stored-value card works normally, residents can have the card recharged at the Section during payment hours.
 3. How to refund: The refund of a stored-value card will be a lump sum. If there is a positive remaining value in the stored-value card and the card works normally, residents can apply for a refund at the Section during payment collection hours.

4. Residents shall safely keep the receipts obtained from card recharges and the refund. No refund is available if a stored-value card does not work normally due to dirtiness, damage, loss, or normal wear and tear. In that case, residents shall buy a new card.
 5. If the card reader in the dorm room does not work for any reason, residents shall make a repair request to the Construction and Maintenance Section on the General Affairs System.
- III. The electricity rates applicable to air conditioning in dormitories are subject to announcements made by the Construction and Maintenance Section.
 - IV. The Rules become effective on the third day of promulgation after being adopted by the University Administration Council and ratified by the President.

Note: In case of any disputes or misunderstandings regarding the interpretation of the language or terms of the Rules, the Chinese language version shall prevail.
